Allowable Subject Matter

1 Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art does not teach that, a grounding conductor provided on the dielectric substrate and surrounding a periphery of an outer edge portion of the radiation element at a position spaced away outwardly from the outer edge portion; and a conductive member provided on the dielectric substrate at a position spaced away outwardly from an outer edge portion of the grounding conductor, wherein the radiation element, the grounding conductor, and the conductive member are provided on the same surface of the dielectric substrate in combination with all limitations recited in independent claim 1.

Prior art does not teach that, a conductive member provided on the dielectric substrate at a position spaced away outwardly from an outer edge portion of the grounding conductor so as to oppose each other, wherein the radiation element, the grounding conductor, and the pair of conductive member are provided on the same surface of the dielectric substrate in combination with all limitations recited in independent claim 6.

Prior art does not teach that, a grounding conductor provided on the dielectric substrate and surrounding a periphery of an outer edge portion of the radiation element at a position spaced away outwardly from the outer edge portion; and a conductive member provided on the dielectric substrate at a position spaced away outwardly from an outer edge portion of the grounding conductor, wherein the radiation element, the grounding conductor, and the conductive member are provided directly on the dielectric

substrate on the same surface thereof in combination with all limitations recited in independent claim 8.

The remaining dependent claims 2-5, 7 are allowable for at least above reason.

Prior art made of record and not relied upon is considered pertinent to applicant's disclosure. None of record prior arts stands alone or combination with the others discloses all limitations required in claim invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation of relevant prior art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Prior art Marumoto et al (U.S. Patent No. 6,556,168) discloses an antenna device.

Prior art Kalt et al (U.S. Patent No. 6,057,814) discloses an antenna.
